

Панел: БЕЗБЕДНА И ОДРЖИВА МОБИЛНОСТ

Dr. Kee Yeon Hwang is a renowned expert in urban and transportation engineering, currently serving as an Invited Professor at KAIST and President of the Korea Delivery Industry Research Institute. He is widely recognized for his leadership in shaping Seoul's transportation system and for his pivotal role in the Cheonggyecheon Stream restoration, for which he received the Order of National Merit. A former President of the Korea Transport Institute, Dr. Hwang is a leading authority in autonomous vehicle policy and future mobility, with a distinguished record of national leadership

*and academic excellence. He currently serves as Vice-Chairman of the Committee on Autonomous Driving at the National Academy of Engineering of Korea and has played a central role in shaping Korea's autonomous vehicle ecosystem. Dr. Hwang was formerly Co-Chair of the National Committee on Autonomous Vehicles and has served as a key member of both the National Committee on Autonomous Vehicle Testing and the National Committee on Autonomous Vehicle Accident Investigation. He is also the principal author of Korea's **National Ethics Guideline for Autonomous Vehicles**, a landmark document guiding the responsible deployment of emerging mobility technologies. Widely respected for bridging research, policy, and engineering, Dr. Hwang continues to influence the future of smart mobility through leadership, scholarship, and national service.*
